LABOR—FARMER POLITICAL CONVENTION FEB. 14—15

Will Get Together To Take Hand In Congressional Election

Moona, Pa.—Delegates from all labor unions, including the railroad Brotherhoods and those of every craft affiliated with the American Federation of Labor, together with the Granges of Bedford, Blair and Cambria counties, will meet in Machinist's hall, Altoona, for the purpose of discussing the issues of the morning, February 14, at 9 o'clock to decide upon a course of action with respect to a congressional nominee for the district.

PASSPORTS MAY COST \$10 SOON

The passport fee would increase to \$10 under a provision written into the diplomatic appropriation bill by the Senate foreign relations committee. The present rate is \$1.00 and the increase would bring in \$5,000,000 annually owing to the large number of people who are now going to Cuba and other countries.

THE NEW SECRETARY

We believe Secretary Houston's nomination to be head of the Treasury Department is in effect a promotion in office, which is warranted by his demonstration of high executive capacity in the Department of Agriculture. He was a member of President Wilson's first cabinet and has served him faithfully and helpfully as adviser and aid. In numerous matters outside of the strict scope of his next field he has contributed effectively to the administration. In his choice of a man to succeed Mr. Glass in the Treasury Department, the President has doubtless been guided by his intimate knowledge of the special qualifications of Mr. Houston.

CONCERT POSTPONED

Announcement is made that the Gettysburg Glee Club Concert, which was to be rendered February 13, 1920, is postponed until after Easter, on account of the Influenza Epidemic in the college. Persons having bought tickets, please hold until the concert is given.

DR. A. ENFIELD APPOINTED CHAIRMAN OF SAVINGS DIVISION

The Savings Division of the Third Federal Reserve District wishes to announce the appointment of E. Pusy Passmore, Governor of the Federal Reserve Bank, of Dr. A. Enfield, of Bedford as Chairman of the Savings Division for Bedford County. The recommendation was made by Mr. W. Harrison Walker, Chairman for Group 3, comprising twenty-four counties.

Dr. Enfield is a well known and popular citizen in his community. He is a Civil War veteran and at present holds the post of Central Accounting has at all times been directly interested in the Savings Movement which the Government is endeavoring to popularize in order to combat the present widespread waste and extravagance and the high cost of profiteering. The success of the movement is dependent on the general practice of Thrift and Savings, on the elimination of unnecessary expenditures and on the investment of savings in Thrift and Savings Stamps—a secure and profitable investment and an excellent medium for the inculcation of a national habit of "Thrift and Saving."

SECRETARY LANE QUILTS

MARCH 1.

Secretary Lane of the Interior Department has placed his resignation to be effective March 1 in the hands of President Wilson. It became known some time ago that the secretary contemplated leaving the cabinet when it was convenient for the President to release him.

Mr. Lane has been Secretary of the Interior since the beginning of the President's administration. Prior to that he was a member and chairman of the Interstate Commerce Commission.

P. O. TO SAVE ENVELOPES

The Post Office Department has announced that 165,000,000 stamped envelopes left over from the third cent postage rates during the war, are to be sold at the rate for two cent stamped envelopes instead of being destroyed, because of the high cost of paper.

When the war time rate of postage was reduced, the post office found that the cost of stamped envelopes averaged \$1.40 a thousand, and that \$231,000 worth of stock on hand was going to waste. A special die for stamp canceling machines was cut and two cents stamped across the face of the envelopes by post office clerks.

POSTMASTERS GET ORDERS CONCERNING BABY CHICKS

To show that Uncle Sam is solicitous even for his day-old chicks, the following orders went out to postmasters throughout the country from the Post Office Department, in anticipation of the season for shipping the chicks by parcel post.

"Parcels must be kept right side up and as near level as possible. Do not expose to cold winds or hot sun. Do not place near hot pipes, stoves or radiators. So far as possible, protect from all extremes of cold or heat. Do not give food or water to the chicks while in transit."

BAKER FAVORS TRAINING BILL

The United States could have brought its full military strength to bear in the war with Germany much earlier than it did if a system of universal military training had been in operation was the statement of Secretary Baker before the House military affairs committee. Mr. Baker made a strong plea for a lump sum appropriation of \$15,000,000 for use by the army air corps to encourage aviation development and production.

FARM BANK LOANS HAILED

Further loans from Federal farm loan banks have been suspended until the constitutionality of the farm loan act has been determined by the U. S. Supreme Court.

Instructions to this effect have been sent out to the farm loan representatives by Commissioner Norris, who explained that the order did not affect loans for which applications already have been received, but that it shut off new applications.

ROSE — WAMBAUGH

Percy B. Rose of Cumberland Valley and Rose M. Wambaugh of near Bedford were united in the bonds of matrimony on Tuesday, February 10, at St. Thomas' Catholic church by Rev. Father C. L. McKinney.

U. S. MUST LOWER EXPENSES

Warning that extreme care must be exercised to ward off a financial panic again was made on the floor of the House by House Leader Mondell when the agricultural appropriation bill came up for consideration. Mr. Mondell said that sharp reductions in governmental expenditures must be made by the House if this country is to avoid getting into the same financial condition as European nations.

Time heals our scars, but wrinkles are another matter.

INCOME TAX PAYMENTS

"Cash payments of Income Taxes should not be sent by mail," says Collector of Internal Revenue, Lederer.

"Cash sent by mail is always at the owner's risk of loss; and if stolen or lost, the sender may find himself facing penalties for failure to pay his tax on time."

"A taxpayer will find it more practical to purchase a Post Office money order or draw a check for the amount of the tax payable to Collector of Internal Revenue, Philadelphia."

"The first payment, due on or before March 15, should be attached securely to the complete return, and forwarded or delivered to my office at the Post Office Bldg., Philadelphia, Pa. This first payment must cover either the entire tax shown due, or at least one fourth of the tax due."

"Early payments and early filing of returns is urged in order that an over-load on the final date, March 15, may be avoided."

"Each taxpayer should put full postage on his mail. If mail is returned to the taxpayer because of insufficient postage, it may result in the return being delinquent to which penalties attach."

"There has been no increase in the field force and therefore, those desiring information should apply for it at once."

EXPECTS INCOME TAXES TO HAVE LONG LIFE

The prediction that the income tax law would be in operation for many years was recently made at a dinner in Washington by P. R. Talbert, chairman of the committee on review and appeals of the U. S. Internal Revenue Bureau.

The Government will be forced to raise between three and four billion dollars a year, Mr. Talbert said, to make up the deficiency in revenue caused by national prohibition and to pay off the war debt. Increased Governmental activities, including a large staff of tax collectors and inspectors have greatly added to the Government's expenses, he said.

A "SUCKER" LIST

We note that a list of 25,000 names is to be sold at auction in New York City. This list is politely known as a customer list, the property of a broker who is now a fugitive from bankruptcy attachments. In the parlance of the street it is better known as a "sucker list." It contains the names of doctors, lawyers, teachers, business men, widows and orphans who have for some time past been getting all kinds of attractive stock literature from this broker, and who, it is understood, have sent him nearly \$75,000 for investments that were never made. The creditors of the disappearing broker have seized the list and propose to sell it as a part of the assets in satisfaction of their claims. Whether the list will fall into honest hands it will do no harm. If, however, it is obtained by same type as the former owner. It may be the means of further defrauding a great many people of a large sum of money.

A high value is placed upon a sucker list of this kind. It does not, of course, follow that everybody whose name is on such a list is an easy mark for a swindle or a promoter of fake schemes. The majority of those addressed probably throw the alluring literature into the waste basket immediately on receipt, but if out of 25,000 people thus addressed 5,000 "bite" the profits are immense. Sometimes actual stock certificates are returned to the investors. Printing is cheap, even in these days of high prices. Promises are cheaper yet, and it is on promises that this sort of stock selling thrives.

If every person who gets a proposition for an investment will but consult a business friend or a banker before sending a check there will be less heart burning and distress. If an investment is sound based upon an actual industry or enterprise nothing is lost by the time necessary to take advice. Any bank official will be glad to give counsel in such matter. It is better to be slow than sorry.

THE PROPOSED TWO-CENT PIECE

We believe that more than practical honor to a great American supports the proposal to establish the two-cent piece as part of our coinage. The war taxes are with us for no short visit. They are due to stay for a long time and the two-cent piece at least will help to make them convenient.

Greater than that is the economic argument that it might remind many who completely ignore the penny in the journey from five to ten cents that there is a happy medium more commensurate with fair profits and fair play.

The war had made the penny fashionable. The Treasury reports show that the mints hardly coin them fast enough. The two-cent piece will be a popular companion and at the same time while it is circulating widely a forceful way something of the achievements of Theodore Roosevelt whom it honors.

FOOD PRICES INCREASE 50 TO 100 PER CENT

Increases of from 50 to 100 per cent in retail prices of the principal food products of the country and from 70 to 200 per cent in wholesale prices during the last six years are shown by figures recently issued by the Bureau of Labor Statistics.

Frankness is a good bait, but flattery catches more fish.

Modesty loses its charm when people boast of it.

NATIONAL DRIVE WILL START SOON

Funds Will Be Raised To Help Armenians and Syrians; Campaign Begins February 15.

Pennsylvania's part in the national drive to save the starving thousands in Armenia and Syria will be staged during the two weeks beginning February 15. A country-wide campaign will be waged during February in which citizens will be given an opportunity to adopt and care for orphans through Near East Relief which has established orphanages in many cities in the stricken countries. County committees are now perfecting plans for the campaign. A contribution of \$60 to Near East Relief will support a refugee for one year.

It is hoped that the campaign will provide sufficient funds for the care and education of the little ones and to assist the grown-ups to again become industrially independent.

It has been announced from the headquarters Near East Relief that only a small part of the proposed one hundred and fifty million dollar Congressional loan is available for Armenians in Russia and that no part of it is available for hundreds of thousands of widows, orphans and refugees in Turkish territory. There is serious danger that even this amount will be reduced. The relief campaign which began in New York Sunday and will open in Pennsylvania on Feb. 15, is vital in saving the people of the Near East from extinction.

Near East Relief, reports that the organization has disbursed a total of \$23,387,439.80 in its operation in Western Asia. This was exclusive of cargoes of flour provided by the American Relief Administration and large quantities of supplies contributed by the Red Cross. Dr. James L. Barton declares that it will require \$30,000,000 to save from starvation the destitute in Western Asia and to operate 196 orphanages, 54 relief stations, 44 hospitals, with 148,728 clinic attendants and 16 homes for women rescued from Moslem harems.

The Near East personnel abroad now consists of 35 physicians and surgeons, 74 nurses, 7 mechanics, 15 industrial experts, 14 bacteriologists, 16 agriculturists, 19 teachers, 20 administrators, 34 secretaries, 37 engineers, 20 supply and transport workers, 46 army officers and 172 orphanage and general relief workers.

Five hundred eleven relief workers in the Near East have sent the following cablegrams from Erivan, Armenia, which is transmitted to county workers for such publicity as they may make of it.

Erivan, Armenia—Conditions here very bad, many dying from lack of proper clothing and nourishment, orphanages crowded and many wandering in open places. We are doing all we can with limited funds at our disposal. Whole hope of Near East people is generous hearted America; please urge people of Pennsylvania to do their share for Near East Relief.

TO THE DEMOCRATIC VOTERS OF PENNSYLVANIA

As Chairman of the Democratic State Committee I hereby announce that the Democrats of Pennsylvania in accordance with the provisions of the Uniform Primary Act of 1913, will nominate at the Spring Primary Election, to be held on Tuesday, May 18, 1920, candidates for the following named offices.

One person for the office of United States Senator.

Four persons for the office of Congressmen-at-Large.

One person for the office of Auditor General.

One person for the office of State Treasurer.

And will also elect one person for Member of the Democratic National Committee and twelve (12) Delegates-at-Large and twelve (12) Alternate Delegates-at-Large to the Democratic National Convention, to be held in San Francisco, Cal., on June 28, 1920.

Nominating petitions for any of these offices will be furnished upon application to the Democratic State Committee, Harrisburg, Pa.

PROPOSES TAX TO PAY YANKS BONUS

To secure sufficient funds to pay \$300 bonuses to all discharged service men, a victory tax of one-half of one percent on all sales is proposed in a bill introduced by Representative Mott of New York. Mr. Mott estimates that in less than a year such a tax would yield \$1,750,000,000. It is doubtful if this measure will pass because statistics now show that the average family tax is now \$550.

SCHOOL NOTES

The Public Schools of Bedford will observe patrons day on Friday Feb. 20. In the afternoon the schools will celebrate with special patriotic exercises in a combined program by grades and high school. Each grade will furnish a number on the program and the high school orchestra and girls glee club will furnish music. Patrons and friends are cordially urged to visit the school.

A collection to pay the remainder of the debt on the playground equipment will be held.

POINT PLEASANT RAND

All members of the Point Pleasant Band are requested to meet on Saturday Evening February 28, 1920 for re-organization.

The Egotist is never blind to his own faults.

FORMER A. E. F. OFFICER IN TOWN

Captain Geo. L. Blosson, who was in Bedford on Monday on business connected with the traveling circus which is being put on by our Army in this section of this State this week, is a former officer of the American Expeditionary Forces having served in France ten months with the 93rd Division. This was a colored organization and upon reaching France was placed for duty with the French Army. The regiment to which Capt. Blosson belonged was the 371st Infantry and was composed of colored troops from the State of So. Carolina. It was placed in the 157th French Division and served with it until after the Armistice was signed. The regiment was engaged in the big French Champagne Offensive of September 1918 and sustained heavy losses.

Capt. Blosson is at present on duty with the 48th Infantry which is stationed at Camp Jackson, Columbia, S. C. and

INTELLECTUAL DISQUIETUDE.

We have had the education of the intellect for centuries and see what it has amounted to—only in controversy and dispute. The unrest that is upon us is a part of the intellectual product. Go out into the areas of unrest and you will find nothing but controversy. It is the mind in labor trying to bring forth a truth, but it doesn't succeed. It is all turmoil and commotion; no calm or tranquillity anywhere. The controversies to adjust conditions are simply intellectual jamborées, where the pride of opinion kicks good will aside and fills the issue with spite and selfishness, says Ohio State Journal. We can escape all this by putting God's spirit into the arena and letting it rule. What is God's spirit? The nobler, truer, kinder natures of men whose opinions are subject to the law of love and justice. That is the condition of moral progress and the only progress worth the slightest care, and we have got to come to it, lawyer, banker, teacher, governor, mayor, preacher, farmer, mechanic. We are going to be calamity howlers and sufferers all our days if we trust to the intellect to lead us out of the darkness.

Every little while something unintentionally humorous crops up in Ludendorff's memoirs. There was a great discontent in the German army over the rations issued and the lower officers set an example by eating the same rations served the men. Ludendorff on account of the strain he was under could not do this nor did his staff. Finally the government at Berlin insisted that all the officers should live on the same rations as the men. To this Ludendorff replied that he would willingly do it if the ministry at Berlin would also live on field rations. The chancellor of the empire was the first to object and this order was not given out.

The Austrian government is still considering selling the jewels and other valuables of the Hapsburgs and applying the money to the purchase of food. Of course, the valuables are to be sold in this country. The European idea of the United States is of a country in which money for any purpose whatever is practically unlimited.

The department of agriculture estimate for October adds another 43,000,000 bushels to the 1919 corn crop score and brings the score up to something over 2,000,000 bushels. This is going to be a great corn year, and, by the same token, a great year for pigs.

Opportunities for wealth lie not in profiteering. Any dealer in the necessities of life who will be content with reasonable profits, and who will keep the public informed and merit confidence, can develop his business from mediocrity to imposing magnitude.

For the first time in Italy a woman lawyer pleaded a case before a court of law. To add to the rarity of the occasion, the case was a military one, in which a soldier was accused of cowardice, and the result was a triumphal acquittal. The day for women has arrived also in Italy.

That statistical sharp who has figured the cost of the war as \$3,932,288 tons and 1,182 pounds in Lincoln pennies might take a day off sometime and let us know how many carloads of Villa currency would have been needed to finance the undertaking.

The record altitude flight has been made of six and a half miles. Now that the north pole has been discovered, the Mecca of the adventurous to which many human sacrifices will doubtless be offered, will be the breaking of each successive altitude record.

One doesn't know just now when he sees a man going through his pockets hurriedly whether he has lost his pocketbook or has forgotten into which one he put his purchase of sugar.

When a Chinaman wants to write the word "trouble" he makes a rough drawing of a house with two women in it. Which would make it appear that the ancient Chinese were wise old fellows.

Don't compare a profiteer to a hog. A hog exerts a great deal, but he gives back everything with his life and carcass. The profiteer is a tapeworm that takes all and gives nothing.

One statistical authority declares the automobile wealth of the United States is \$7,000,000,000. That must be a great deal more than the automobile poverty of the country.

There are tens of thousands of hands spending two-thirds of their time grasping the steering wheel that ought to be gripping the plowhandles.

Interesting News Items, Briefly Condensed, Picked Up at the Departments, Which Are of Interest to the People of the State.

Harrisburg, Pa.—In reply to the inquiries made at the State Highway Department concerning the mandamus action brought by the secretary of the State Motor Federation in the Dauphin County Court to test the right of the State Highway Department to require all applicants for registration of motor vehicles to furnish detailed information relating to lights and violation of traffic laws, Commissioner Sadler said that careful consideration was given in the preparation of application requirements, under provisions of the motor vehicle law, approved June 30, 1919, which clearly sets forth certain duties of the commissioner of highways. One of his principal obligations is to safeguard the public against careless and reckless operations of motor vehicles. The tendency in recent years has been toward a more stringent regulation of this class of traffic, and the conclusions embodied in the application blank represent the best judgment of those interested in the reasonable and sane enforcement of the law.

State Code Governing Elevators
Revision of the State Industrial Board code governing elevators in Pennsylvania will probably be completed by the committee in charge before April. A sub-committee named to consider various suggestions has been sitting in Philadelphia and the general committee will be summoned shortly to consider the draft. The committee on a general sanitation code for all industries will also meet soon to receive the first draft after a study of conditions.

School Employees' Retirement Fund
The State School Employees' Retirement Fund Board has arranged to invest half a million dollars of the funds of the Board in Victory Liberty bonds. This will be the first investment of the Board of any size and marks the creation of the permanent fund. Large payments have been made by teachers and districts in the last year and a considerable sum has to be kept available for payments, but the remainder will be put into Government bonds.

Urged to Uphold Board Ruling.

Employers in Pennsylvania should uphold the ruling of the industrial board, even to the point of discharging an employee who will not voluntarily and in good faith submit to a search, when forbidden to carry matches or other flame-producing devices into places where either is manufactured or handled, according to an opinion just given by the Attorney General's Department. The question was raised by some employers whether they had the legal right to search an employee by the use of physical means and whether, if they employed force, it would not make them liable to arrest on charges of assault and battery.

Contamination of Rivers

"The State of Pennsylvania is co-operating with the city of Philadelphia in an effort to find out the cause of contamination of the rivers. We have inspectors at work and in due time hope to be able to state just exactly the cause. That is all that can be said just now," said Commissioner of Health Edward Martin, when asked about Director John C. Winston's charges of pollution of water at Philadelphia.

1919 Auto Tags Are Now Void.

Extension granted to automobile owners in Pennsylvania permitting use of 1919 tags has expired. The Highway Department requests police officials throughout the State to recognize New York and Ohio 1919 licenses until February 19, requests to that effect having been received from authorities of those States.

State Order on Cigar Making.

Howmen will be held March 2 in Pittsburgh, March 2 in Scranton and March 4 in Philadelphia under the ruling of the State Industrial Board that the practice of bringing a cigar into touch with the mouth during the process of making is injurious and must be discontinued by factories.

Industrial Deaths in January

The Bureau of Inspection of the Department of Labor and Industry reports that there were 241 fatal accidents among industrial works in January, of which 51 were of persons employed in factories, 52 with public service companies and 98 in mines. Allegheny county showed the greatest number of fatalities with 29 and Philadelphia was second with 28. The bureau has investigated 72 of the industrial accidents and definite action

LESSON FOR FEBRUARY 15-

PETER AND CORNELIUS.

LESSON TEXT—Acts 10.
GOLDEN TEXT—The same Lord over all is rich unto all that call upon him.—Rom. 10:12.

ADDITIONAL MATERIAL—Acts 15: 1-35; Gal. 2:1-21.

PRIMARY TOPIC—God's Love for Everybody.

JUNIOR TOPIC—Peter Wins a Roman Captain.

INTERMEDIATE AND SENIOR TOPIC—The Overcoming of Prejudice.

YOUNG PEOPLE AND ADULT TOPIC—Significance of the Conversion of Cornelius.

The conversion of Cornelius broke down the "middle wall of partition" between the Jews and Gentiles (Eph. 2:4).

1. Cornelius (vv. 1, 2).

1. His official position (v. 1). He was a Roman officer over a company of 100 soldiers, perhaps of about the same rank as a captain in the American army.

2. His character (v. 2). (1) A devout, pious man. His heart was filled with godly fear. (2) He was a praying man; he observed the Jewish hour of prayer. (3) He was charitable; he gave much alms. (4) He was respected by his family.

The Lord chose Cornelius for the transition of the Gospel to the Gentiles because of his character and position. No Jew could find any fault with him. He was a good man, but not a saved man.

11. The Supernatural Preparation for the Transition of the Gospel to the Gentiles (vv. 3-8).

1. Two visions were given. (1) The vision of Cornelius (vv. 3-5). While engaged in prayer an angel of God instructed him to send to Joppa for Peter, who would tell him what to do. The angel told him that Peter lodged with Simon, a tanner, to show Cornelius that Peter was not the strictest Jew. The calling of a tanner was regarded as unclean by the strict Jews, and the tanners were commanded to dwell apart. Cornelius sent at once for Peter. He was living up to the best light he had, so he received more. (2) The vision of Peter (vv. 9-16). This took place while Peter was praying (v. 9). If one would receive visions from God, let him pray to God; for the heavens are open to those who pray. He saw a certain vessel containing clean and unclean animals let down from heaven, and heard the command: "Rise, Peter; kill, and eat." Peter protested that he had never eaten any unclean thing. God replied: "What God hath cleansed, call not thou common." This vessel let down from heaven and taken back indicated that both Jew and Gentile were accepted on high.

2. Messengers from Cornelius (vv. 17-22). Peter was greatly perplexed over what he had seen, but not for long; for messengers from Cornelius made inquiry at the gate for him. The spirit informed Peter of the matter and bade him go, nothing doubting.

3. The meeting of Cornelius and Peter (vv. 23-33). (1) Peter took six witnesses along (v. 23). He had the good judgment to know that on a matter of so great importance he must have witnesses. This was proved at the Jerusalem council in the consideration of the question of the reception of the Gentiles into the church (11:1-18).

(2) Cornelius waiting for Peter (v. 24). He called together his kinsmen and near friends. (3) Cornelius about to worship Peter (vv. 25, 26). Peter repudiated this act and protested that he was but a man. The true man of God not only dislikes, but refuses to be worshipped. (4) The reciprocal explanation (vv. 27-33). Peter explained to him how God had taken from him his Jewish prejudice and asked that Cornelius state the purpose of his having sent for him. Cornelius explained how God had appeared unto him and instructed him to send for Peter.

111. Peter's Sermon (vv. 34-43).

1. The introduction (vv. 34, 35). He showed that God is no respecter of persons, but that in every nation those who fear God and work righteousness are accepted of him.

2. The discourse (vv. 36-43). In the discourse he touches briefly upon the mission of Jesus, showing that by means of his baptism and anointing with the Holy Spirit he was qualified for his work as mediator. He then exhibited the work of Christ (1) in his life (vv. 36-39). (2) In his death (v. 39). (3) In his resurrection (vv. 40, 41).

IV. The Holy Spirit Poured Out (vv. 44-48).

This was a new Pentecost. As the Gospel was entering upon its widest sphere the Spirit came in new power.

Power of Faith.

Christianity has its best exponents in the lives of the saints. It is only when our creeds pass into the blood that they become vital and organic. Faith if not transmuted into character has lost its power.—C. L. Thompson.

No Man is Useless.

FARM ANIMALS

GOOD CARE OF WORK HORSE

Practice of Turning Animals on Pasture on Sundays Not Favored—Examine Feet Often.

(Prepared by the United States Department of Agriculture.)

Grass is not a desirable material to serve as the basis of the work horse ration. The practice of turning work animals out on Sundays to eat grass, to which they are unaccustomed, is a prolific source of colic and other digestive disorders. Generally the animals would be better off in a cool, darkened stable, where they could be carried on half rations of grain during idleness.

Where work horses which are fed a full allowance of grain are turned out to graze each night they usually are in poor condition for work next day, as the extra feed they have consumed merely tends to increase the tax on their digestive capacity. However, where the stables are hot and ill-ventilated it is preferable to expose the horses to digestive troubles on the pastures rather than to attempt to carry them in the barns.

Horses at Work Need a Ration With a High Percentage of Grain.

The feet of the work animals should be examined frequently during the summer, in order that accumulations of dirt may be removed. A few moments devoted to scraping out the hoofs each morning and evening will add to the comfort of the beasts, as often such foreign materials as nails or stones lodge in the wall or sole of the foot or are collected in the clefts of the frog or between the bars and frog. If the hoofs are excessively dry or brittle, they should be oiled with some good oil or hoof dressing, and if they are ragged or split, they should be rasped to the edges and trimmed until smooth.

It is advisable to clip horses when the weather warms up in the spring and heavy work begins. When clipped, they work much better, and they do not become chilled after work from having thoroughly soaked the heavy coat of winter hair with perspiration. Horses that are clipped as soon as heavy spring work begins should be blanketed at night.

GOOD COVERING FOR SILAGE

Run in Cornstalks From Which Ears Have Been Removed—Top Is Thoroughly Tramped Down.

(Prepared by the United States Department of Agriculture.)

Several years ago it was a common practice to cover the silage with some material, such as dirt or cut straw, in order to prevent the top layer from spoiling. At present when any provision at all is made for this purpose it consists usually in merely running in on top cornstalks from which the ears have been removed. By this method some of the corn grain is saved. The heavy green cornstalks pack much better than straw does and so exclude the air more effectually. The top is thoroughly tramped and then wet down. Sometimes oats are sown on the top before wetting. The heat generated by the fermenting mass will cause the oats to sprout quickly and form a dense sod, which serves to shut off the air from the silage beneath, and in consequence only a very shallow layer spoils. Whenever possible, it is better to begin feeding from the silo as soon as it is filled; by doing this no covering is necessary and there should be no loss on account of spoiling.

IOWA IS LARGEST HOG STATE

Bureau of Crop Estimates Places Number at 10,925,000—Illinois Is Placed Next.

(Prepared by the United States Department of Agriculture.)

In number of hogs on farms, Iowa is by far the most distinguished state in this country. The estimate of the bureau of crop estimates for 1919 is 10,925,000 hogs in Iowa, 5,724,000 in Illinois, 4,943,000 in Missouri, 4,668,000 in Indiana, 4,266,000 in Ohio, 4,250,000 in Nebraska, and 3,043,000 hogs in Georgia. Every other state is below 1,000,000. Iowa's hogs are about one-eighth of the nation's total, and nearly double the number of Illinois, the state next below.

Much can be said of the "Flu's" dreadful work in this community, one of the most notable cases is the family of Howard Bohn. A week ago Mr. Bohn and family of six went down with this disease. The mother took pneumonia, and died Friday at 9 o'clock. The two daughters, Veda and Agnes are dangerously ill and the father is in bad shape.

Believe People will Reward Compet-
ent Administration, Successful
Prosecution of the War Progress-
ive Legislation and Con-
tinuance of Prosperity

The political pot is beginning to
boil and bubble on Capitol Hill. De-
mocratic leaders are putting the Re-
publicans on the defensive and em-
barrassing the leaders. Majority
Leader Mondell is under a fierce
fire from the old progressive
group are weary of the Mondell
partisan way of doing things; they
fear he will cause a reaction against
them back home.

Democratic leaders of Congress
believe that the voters of the nation
will return the Democrats to full
power in Washington next November.
(1) Because the federal offices of
the country now largely in the hands
of Democrats, are well administered,
and free from scandals.

(2) Because the Democratic ad-
ministration conducted a success-
ful war against the German auto-
crats.

(3) Because the Democrats enacted
more constructive and helpful leg-
islation within the last eight years
than the Republicans did in the four
decades prior to their downfall ten
years ago.

(4) Because the Democratic leader-
ship—President Wilson—has the
greatest personal following of any
man in public life in the United States.
Since the death of Colonel Roosevelt
the Republicans have no leader
with a strong personal following.

(5) Because the country is prosper-
ous and the average man is hav-
ing his day.

Believing these things to be true,
Democratic workers of Congress will
take the offensive now, and be the
aggressors in all rough and tumble
political fights. If the Republicans
continue to play politics, as they
have done since the Sixty-sixth Con-
gress convened, the Democrats will
meet them on their own ground.

There is promise of a spirited war
in the House where the Old Guard
partisans are fatally bent on making
trouble.

Minority Leader Champ Clark and
his chief lieutenant, Representative
Claude Kitchin, have routed Frank
W. Mondell, the Republican leader,
and Phil Campbell, chairman of the
Rules Committee of the House, in
the controversy over proposed sol-
diers and sailors legislation. The Re-
publicans have been camouflaged;
they would court favor with the re-
turned fighting men, but have no in-
tention of doing the right thing by
them.

"I would like to ask the gentleman
from Kansas (Mr. Campbell)" in-
quired Mr. Clark recently, "when
they are going to bring up the sol-
diers' farm-land bill."

Mr. Campbell said he was not able
to advise the minority leader.

"That bill has been reported and
has been on the calendar here for
five or six months—since August 1
—and a great many people want to
know when anything is going to be
done about it, and why it is not
brought up and considered," insisted
Mr. Clark.

"That bill provided three things.
First, to get water onto dry land,
and to take water off of the wet land,
and to take over unowned lands. Here
is the point: Before this Congress
met, Secretary Lane got up a bill
which is now called the Mondell bill.
"It was heralded all over the coun-
try with a great flourish of trumpets
and braying of brass bands and
everything else that proposed legis-
lation was one of chief things that
the extra session of Congress was
going to meet for."

Representative Walsh and Camp-
bell tried to divert Mr. Clark but
without success.

"We have been running for seven
months on what the gentleman
from Illinois (Mr. Mann) calls 'chick-
en-feed' bills, and nothing has
been done about this important leg-
islation," declared Mr. Clark.

Mr. Kitchin laughing, said Mr.
Clark was cruel to the Republicans.

"That question is very embarrass-
ing to the chairman of the Rules
Committee," said Mr. Kitchin. He is
not in favor of the bill himself, and
it is quite embarrassing to the ma-
jority leader I can tell you when the
Republicans are going to give you
some information about that. They
are going to wait until the national
people what they are going to do if
they are elected to the next Congress.
It seems that the gentleman who in-
troduced this bill has not even pushed
it, has not asked the Rules Com-
mittee to report it out, and has not
asked unanimous consent for its con-
sideration. I thought it was a real
bill for the soldiers and not for hum-
combe."

It was made plain during the con-
sideration of the postoffice appropria-
tion bill in the House that Majority
Leader Mondell and other Republi-
cans are playing politics with the
soldiers' farm-land bill.

develop new air routes has angered
progressive Republican Congressman
who assert that their leader has an-
tagonized popular cities of the West
which desire quicker communication
with the East. Proposed extensions
of the flying service of the Postoffice
Department would have been es-
pecially serviceable to middle west-
ern States, such as Missouri, Indiana,
Illinois, Minnesota and Ohio, and to
the Pacific coast cities.

Representative Tilton, Republican,
of Connecticut, broke out in meeting
on the subject.

"I have been proud of my member-
ship in this House," said he, "but I
look with shame upon sentiments ex-
pressed here on this subject. The ac-
tion taken by the House not only de-
nies development of the mail service
but also denies the opportunity for
development of the airplane industry
of this country."

Mr. Mondell was severely criticised
by Representative Byrnes of South
Carolina for playing politics by mak-
ing increases not requested by the
Postoffice Department.

"After his committee succeeds in
taking some \$70,000,000 additional
from the Treasury," Mr. Byrnes said,
"we find the Republican leader com-
ing in here and urging that the
House deny the small sum of \$350,-
500 to the aerial mail service and he
takes his action after he is shown
conclusively that the appropriation
of this amount of money will result
in an actual saving in the end."

The anti-air policy of the Repub-
lican leaders of the House has about
completely ruined the splendid ser-
vices built up by the Army and Navy.
The plans of the Postoffice Depart-
ment to develop a useful and exten-
sive air mail service connecting the
distant points of the country will be
given up if the House program is fol-
lowed by the Senate.

The Republicans began their at-
tack on the air service soon after they
took charge of Congress last May.
Former Representative La Guardia
of New York led the attack. Now Ma-
jority Leader Mondell is leading it.
He denied that the service expedited
mail, and refused to accept state-
ments that it had paid for itself.

The postoffice officials cannot go
ahead with letting contracts or mak-
ing other necessary preparations for
the flying service next year. They
planned to link all of the important
cities from coast to coast in the next
few months.

"The new air routes would reduce
by one-half the mail time by train,"
the Department announces. "For in-
stance, a letter mailed in New York
would reach the Pacific Coast in ap-
proximately 45 hours and 15 minutes
west bound, against 90 hours and 30
minutes, west bound by train, and 51
hours air time, east bound, against
102 hours, east bound by train time.
The Postoffice Department is also
considering the establishment of a
hydroplane route down the Missis-
sippi river from St. Louis to New Or-
leans, stopping at Cairo, Ill., Mem-
phis, Tenn., and Vicksburg, Miss.,

Anything that promises progress
and advancement is met with oppo-
sition on the part of the leaders of the
Sixty-sixth Congress. Any proposi-
tion on the part of a Democrat to aid
the people carry on their business is
halted by points of order or other
parliamentary tactics.

The following amendment, offered
to the postoffice appropriation bill by
a Democrat, was promptly knocked
out by an objection raised by Re-
presentative Madden of Illinois: "Pro-
vided further, that hereafter the Post
master General under such rules and
regulations as he may prescribe, is
authorized to make contracts with
telephone and telegraph companies
for the transmission of such letters
by such means of communication
shall not exceed 30 cents for 100
words or less, and that the rate of
postage prescribed by the Postmaster
General for such letters shall be such
as to cover full cost to the postal es-
tablishment for such service."

The Postoffice Department desires
this constructive legislation for the
benefit of the masses. Had it been
accepted by the Republicans and en-
acted into law, wire service would
have brought within the reach of all
that the sending of such messages or
letters was apt to cost the postal ser-
vice anything. It would have resulted
in a larger and better service, and a
larger benefit to the public.

FARM HOUSEHOLD ACCOUNTS.

The Department of Agriculture say
farm household accounts are valu-
able, both as supplements to the re-
cords of the farm business in general
and as a means of effecting sav-
ings in operating the household. The
methods of household account keep-
ing outlined in this booklet are of
the simplest character, and are in-
tended to suggest how household ac-
counts may be kept, rather than to
outline any hard and fast system.
Readers of The Gazette may obtain
a copy of this booklet free by asking
for F. B. 964, addressing the Division
of Publications, Dept. of Agriculture
Washington, D. C.

MRS. MARY E. CESSNA

At the home of her son Charles
A., at Smithfield Fayette County, Pa.,
on the evening of January 21, 1920,
Mrs. Mary E. Cessna departed this
life from an apoplectic attack.

She was the oldest daughter of
the late Jacob and Eliza Krichbaum,
born at Bedford June 28, 1840. In
1858 she was united in marriage to
Jacob S. Cessna, who died some fif-
teen years ago. Her whole married
life was passed in Cumberland Val-
ley Township in the vicinity of Cen-
terville, but since the death of her
husband she has made her home with
her daughter Clara and her son
Charles.

She leaves to mourn her depart-
ure the following children: Alice Gil-
lum of Cumberland Md; T. Benton
of Mt. Pleasant; John K. and Charles
A. and Clara Echart of Smithfield;
Harry A. of Columbus Ohio and Dora
Vermuth of Cumberland Valley town-
ship, and also by one brother, John
G. Krichbaum of Woodbury, Pa.

She taught school in her early life,
and was a member of the Methodist
Church for more than sixty five years.
A faithful wife, a loving and affec-
tionate mother and esteemed woman
in the neighborhood in which she so
long lived, she has left as a sweet
memorial of a noble Christian life.
And not only her children, but her
neighbors and acquaintances will
rise up to call her blessed.

SOPHIA E. RITCHEY

Miss Sophia E. Ritchey of Snake
Spring Valley died on Monday of this
week as a result of a paralytic stroke
at the home of S. G. Bollman, aged
75 years, five months and 23 days.
She was a daughter of Michael S. and
Sarah (Elder) Ritchey both deceased.
She is survived by John E. Ritchey, of
Loysburg, Solomon E. Ritchey, of
Bakers Summit, brothers and Mrs.
S. G. Bollman, a sister. She was born
was raised and she died on the old
Ritchey homestead known as such for
150 years. The funeral was conducted
by Rev. J. Albert Eyer, of the Re-
formed church, Bedford and interment
in the Everett Cemetery yester-
day.

She was a member of the Reform-
ed church for years and she was
known by everybody.

MRS. HOWARD BOHN

Mrs. Howard Bohn died on Friday
February 6, of pneumonia resulting
from influenza at her home in Char-
lesville, Colerain township. Interment
was made Monday. Her two daughter
are critically ill at this time while the
husband and three other children are
also afflicted. Owing to the bad con-
dition of the roads, the drifts in some
places being almost impassable, the
physicians from this section experi-
ence great difficulty in reaching their
patients.

MRS. ALBERT BEEMILLER

The body of Mrs. Albert Beemiller,
who died at her home in Akron, Ohio
last Saturday night after a few days'
illness of pneumonia, was brought to
the home of her husband's mother,
Mrs. Jos. Beemiller, on East Pitt St.
at this place Mon. evening The fun-
eral services were held in St. Thomas'
Catholic church at ten o'clock Wed-
nesday morning, Rev. Father C. L.
McKinney officiating. Interment was
made in the cemetery west of town.
Mrs. Beemiller, who was about thirty
years of age, was Mary the youngest
daughter of Luke Kilcoin of near
Bedford and was united in marriage
with Albert Beemiller of this place
about ten years ago, moving to Ohio,
where they had since resided. Besides
her husband and four small children,
she is survived by her father, a sister,
Mrs. Rufus Wertz, residing in the far
west, and one brother, James E. Kil-
coin, of near Bedford.

THE BUICK CAR.

There are a lot of things a man buys that he intends to discard after a season or so. He expects the style to change year by year. This is as it should be.

But no matter how much money a man has, when he makes the purchase of an automobile he expects to get a REASONABLY PERMANENT VALUE.

He usually gets it in everything but his motor car, where the habit of style changes each year may wipe out 30 per cent of its value over night.

If a car is expected to last only a year or two, there is no reason why its style should not change every season.

But the BUICK COMPANY believes that STABILIZED STYLE in BODY CONSTRUCTION AND STYLE is just as important as BUICK MECHANICAL FEATURES and PERFORMANCE.

THE BUICK CAR is built to DELIVER SERVICE over a TERM OF YEARS and is not subject to passing moods in STYLE nor ENGINEERING DESIGN.

Think before you buy. Have you ever heard people say that they see so MANY BUICKS every where they go? That is because the BUICK keeps on running, and is ALWAYS A NEW MODEL.

Choose a car that will be good for MANY SEASONS as well as for one.

Camel CIGARETTES

Don't look for premiums or coupons, as the cost of the tobacco blended in CAMEL Cigarettes prohibits the use of them.

Cigarettes made to meet your taste!

Camels are offered you as a cigarette entirely out of the ordinary—a flavor and smoothness never before attained. To best realize their quality compare Camels with any cigarette in the world at any price!

Camels flavor is so refreshing, so enticing, it will win you at once—it is so new and unusual. That's what Camels expert blend of choice Turkish and choice Domestic tobacco gives you! You'll prefer this blend to either kind of tobacco smoked straight!

As you smoke Camels, you'll note absence of any unpleasant cigarettey aftertaste or any unpleasant cigarettey odor. And, you'll be delighted to discover that you can smoke Camels liberally without tiring your taste!

Take Camels at any angle—they surely supply cigarette contentment beyond anything you ever experienced. *They're a cigarette revelation!* You do not miss coupons, premiums or gifts. *You'll prefer Camels quality!*

Camels are sold everywhere in scientifically sealed packages of 20 cigarettes or ten packages (200 cigarettes) in a glassine paper covered carton. We strongly recommend this carton for the home or office supply or when you travel.

If the Republican majority in Congress continues to procrastinate in legislating for the soldiers, the latter will become eligible for old-age pensions before anything is done for them.

After having spent three months in a public exhibition of this discord Republicans of the House have decided to have another quarrel in private at the next caucus November 10.

The Velvet tin is twice as big as shown here

There's a World of Solid Comfort In the Rich, Red Tin

YES, sir, we mean that same warm red and gold tin that smiles a welcoming "Howdy" to you in every tobacco store. Know what those colors mean?

The red is for the friendly warmth, the mellow cheeriness, that Velvet puts into your old pipe. And the gold is where the Kentucky sunshine, that ripens good old Velvet, has just sort of soaked through.

Remember what Velvet Joe said about it?

"You've met canned meat and canned music. Ever see any tinned sunshine? Well, look into any Velvet tin."

And think this over:

We don't have to hide Velvet's taste or smell with a lot of this, that and the other thing. Because Velvet has *naturally* what pipe smokers want—real simon-pure tobacco taste and fragrance. It's just good, honest Kentucky leaf, made still more friendly and mellow by two years' ageing in wooden hogsheads. Just good tobacco. That's all. But it's mighty near enough for the man who wants a pipeful of tobacco and not a box of bon bons.

The picture of a pipe on the tin needn't keep you from rolling a jim-dandy cigarette with Velvet.

How's the Velvet holding out in your old red tin?

HOW TO GET RID OF BEDBUGS

The presence of bedbugs in the house is not necessarily an indication of neglect or carelessness, or, as little as the idea may be relished, this insect may gain access in spite of the adoption of all reasonable precautions. It is very apt to get into trunks and satchels of travelers, or into the baskets of laundry, and may thus be introduced into homes. The most effective method of destroying these pests, according to the U. S. Department of Agriculture, is by fumigation which is treated at length in this booklet.

You may obtain a copy of this booklet free by asking for F. B. 754 addressing the Division of Publications, Dept. of Agriculture, Washington, D. C.

Man Who Reaches the Top.

Pennillon Singing.

Pennillon singing is quite common in Wales, and peculiar to the principality. It consists of an instrument playing over a tune in strict time and repeating it over and over again, while the singer or singers extemporize words to it in rhyme. The impromptu poetry must fit in with the music and is generally of an amusing character. The custom is quite common among the people, and the instrument used is their national instrument, the harp.

Solo Most Frequently Used.

Music may be joined to words in many ways: in church music, opera, oratorio, madrigals, part songs, and so on. But experience shows that the most frequently used type is the solo, ranging in its manifestations from primitive folk song up to the clearest complexities of the art.

"It was a hard life, but a good life, and a life that built MEN"

THE 14 ARMS OF THE SERVICE

The Recruiting Sergeant can give you the information that will help you decide which branch fits you best. In all of them you will get the fine training as a soldier that the United States offers all its men—in many branches you can get highly specialized training.

INFANTRY—The men who have made the name of "doughboy" feared and respected throughout the world welcome you to the comradeship. Fine fellows—good fun and good training in any school at the post you go to.

CAVALRY—When the horses are champing at the bit and the "yellow legs" mount up and the troop rides forth, there is a thrill that no old cavalryman can ever forget. A horse of your own—a good outdoor life and training for future success.

FIELD ARTILLERY—"Action Front" comes the command—then watch the boys with the red hat cord snap into it. A happy outfit—with the dash of mounted service added to interesting work that calls for head and hand. Motors if you wish.

CORPS OF ENGINEERS—Army engineering is known the world over for its excellence and an enlistment in the engineers can be the start of a young man's training in the various branches of engineering and in any of the mechanical and building trades.

COAST ARTILLERY—Living on the sea coasts, guarding big cities with big guns, getting time for study and a wide and good technical training, the C. A. C. man is preparing for a useful life and good pay and is having a good time while he's learning. The C. A. C. also mans the mobile big gun regiments throughout the country.

AIR SERVICE (including BALLOON CORPS)—The man who gets the early edge in experience with aeroplanes and balloons has a chance to cash in big on his army training. For flying is only in its infancy and it's going to be a profitable business for men with the right experience.

ORDNANCE DEPT.—The ordnance is appealing to the studious young American. To wide opportunities for study, it adds a business as well as a technical training.

SIGNAL CORPS—Whether it's laying a wire from a reel-cart at a gallop or installing a wireless station that will flash its message half around the world, the Signal Corps is there, and a man who learns radio telegraph and telephone work in the Signal Corps is always valuable.

MEDICAL DEPT.—Good experience, good pay, and training in all branches of hospital work. Excellent opportunity for future success. The Veterinary Corps teaches the care of horses as well as meat and milk inspection.

TANK CORPS—The man who knows gas motors and tractors or who wants to know them is invited to join the Tanks. Radio, machine gun and ordnance work are all parts of the Tank Corps work.

QUARTERMASTER CORPS—The Corps that feeds and clothes the Army offers a valuable training for future business. Interesting work for the man who likes horses in the Remount Service.

CONSTRUCTION DIVISION—Practical work in the many trades is part of the every day life of the Construction Division. Many opportunities to learn the trades of highly paid specialists.

CHEMICAL WARFARE SERVICE—For a man with a little knowledge of chemistry or for any ambitious young man who would like to get that knowledge, there is interesting work and rapid advancement in the C. W. S.

MOTOR TRANSPORT CORPS—A thorough practical training in motors and their accessories, and in driving as well, is given in the well-equipped schools of the Motor Transport Corps.

WHEN I got out of the Army, I raised my right hand over my derby and said, "Never again, I hope!"

And I am here to state that I was just one of about 3,000,000 who felt like that—only stronger.

It was my privilege to kick and believe me, I did. I couldn't get out too quick—I wanted a feather bed, restaurant food and trousers that flapped around my ankles.

But now that I'm out, civil life is not all that we cracked it up to be! And the Army looks like a pretty good place, after all.

I've been and seen and done things that I wouldn't give up my memories of, for anything.

I had a fine crowd of buddies—two-fisted men with a regular man's outlook on life.

I learned how to take care of myself and all comers—to hold my own with the best and with the worst.

And I learned the sort of discipline that makes a man able to handle men.

I got pretty fair clothes—not as good as the Army gives in peace time but warm and plenty of them—and they didn't set me back sixty a suit, either.

Meals—well, did you ever see a hungry looking soldier?

We all kicked then. Some of the rear-rank generals will always kick. You can't please some birds ever.

The Army never was a bed of roses—it was not meant to be. It is a powerful fighting machine. And even right now, with the peacetime lack of hardship, it's still no place for the lad who won't "play ball."

But, the man who does his duty, who snaps into the spirit of the game, who stands on his own feet, who plays hard and plays clean—there is the chap who gets along and eats up the Army life.

He learns how to handle men, he rises in rank as fast as he proves himself.

He is intrusted with important and interesting work.

He gets more money clear than he could save in civil life.

He comes out with a better education—he has a real time with a good crowd of regular he-men.

He's seen something and been something and done something for the little old U. S. A.

Where the U. S. Army Serves

American troops are serving in Panama, Hawaii, the Philippines, Alaska, China, Germany, Siberia and here in the U. S. A. The Recruiting Sergeant will gladly give you all the details.
